A PORTION OF THE SUBDIVISION OF SECTION 30,
THE RETRACEMENT OF TRACT 37

AND

THE SUBDIVISION OF A PORTION OF SECTION 30,

IN

TOWNSHIP 34 SOUTH RANGE 5 WEST

OF THE SALT LAKE MERIDIAN
IN THE STATE OF UTAH

EXECUTED BY

Jeremy D. Davis
Cadastral Surveyor

Under special instructions dated **August 8, 2008**, approved **August 8, 2008**,
which provided for the surveys included under Group Number **1082**, and
assignment instructions dated **August 8, 2008**.

Survey commenced **August 19, 2008**
Survey completed **August 28, 2008**

TOWNSHIP 34 SOUTH, RANGE 5 WEST, SALT LAKE MERIDIAN, UTAH

The following field notes are those of the dependent resurvey of a portion of the west boundary, a portion of the subdivisional lines, a portion of the subdivision of section 30, the retracement of tract 37 and the subdivision of a portion of section 30, in T. 34 S., R. 5 W., Salt Lake Meridian, Utah.

COUNTY SURVEYS

The Garfield County Surveyors Office has monumented some corners in the township, with Corner Perpetuations and Filing Records on file in the Garfield County Recorder's Office.

PRIVATE SURVEYS

A survey was executed by Kary B. Monroe, P.L.S. 164561, with a plat dated February 22, 1999, on record at the Garfield County Recorder's Office.

A survey was executed by Lanny K. Talbot, R.P.L.S. 165634, with plats dated October 26, 2000 and February 18, 2001, on record at the Garfield County Recorder's Office.

The Resurvey of the Subdivision of Section 30.....14
The Retracement of Tract 37.....17
The Survey of the Subdivision of Section 30.....19

T. 34 S., R. 5 W., SALT LAKE MERIDIAN, UTAH

A survey was executed by James A. Raines, P.L.S. 334569, with a plat dated July 27, 2007, on record at the Garfield County Recorder's Office.

This survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 1082, dated August 8, 2008.

The direction of the lines was determined by references to true meridians, established by Global Positioning System (GPS) utilizing Real-Time Kinematic (RTK) techniques throughout the survey. The positional accuracy of this survey complies with the Standards and Guidelines for Cadastral Surveys Using Global Positioning System Methods, dated May 9, 2001. Trimble model 5800 GPS receivers were used for field collection. Cadastral Measurement Management (CMM) software was the primary software utilized for project calculations.

Preliminary to the resurvey, the lines of the prior surveys were retraced and search was made for all corners and their calls of record. Identified corners were remonumented in their original positions. Lost corners were reestablished and remonumented at proportionate positions based on the official record. The retracement data was thoroughly verified and only the true line field notes are given herein.

Geodetic control was derived from National Geodetic Survey Station "Panguitch" with the published data as follows:

Latitude: 37°48'58.37061"N. Longitude: 112°24'20.17241"W. NAD 1983 (1994). NAVD 1988 Elevation, 6802 feet.

The geographic position of the corner of sections 29, 30, 31 and 32, as determined by using indirect RTK methods from National Geodetic Survey Station "Panguitch" is as follows:

Latitude: 37°49'04.630" N. Longitude: 112°27'03.000" W. NAD 1983.

Network Accuracy = 0.200 meters at 95% confidence.

DEPENDENT RESURVEY OF A PORTION OF THE WEST BOUNDARY,
T. 34 S., R. 5 W., SALT LAKE MERIDIAN, UTAH.

CHAINS

Dependent Resurvey of a Portion of the West Boundary,
T. 34 S., R. 5 W., Salt Lake Meridian, Utah.

Reestablishment of the Survey Executed by T.C. Bailey and J.G. Burrill in 1874, and the Resurvey Executed by A. Nelson in 1924.

Beginning at the corner of sections 25, 30, 31, and 36, monumented with a Garfield County Survey monument, an aluminum pipe, 2 inches diameter, firmly set, projecting 2 inches above the ground with a 3 1/4 inches diameter aluminum cap marked:

Garfield County
T34S
R6W R5W
S25|S30
S36|S31
2006
PLS 161040

No remaining evidence of the 1924 bearing trees was found.

Found a steel fence post alongside the aluminum post.

This monument as set by Garfield County in 2006, is accepted as the best available evidence of the position of the original section corner.

The Corner Perpetuation and Filing Records are found in the Garfield County Recorder's Office.

Corner falls in a flat open meadow.

N.0°05.8' E., between sections 25 and 30.

19.580 The S 1/16 section corner of sections 25 and 30, monumented with a Garfield County Survey monument, an aluminum pipe, 2 inches diameter, firmly set, with a 3 1/4 inches diameter aluminum cap marked:

Garfield County
T34S

R6W R5W
S25|S30
2006
PLS 161040

Found a mound of stone, south of the aluminum pipe.

Found a steel fence post alongside the aluminum pipe.

DEPENDENT RESURVEY OF A PORTION OF THE WEST BOUNDARY,
T. 34 S., R. 5 W., SALT LAKE MERIDIAN, UTAH.

CHAINS

This monument as set by Garfield County in 2006, is accepted as the best available evidence of the position of the S 1/16 section corner.

The Corner Perpetuation and Filing Records are found in the Garfield County Recorder's Office.

Corner falls on flat ground in piñon growth.

N. 0°06.4' E., beginning new measurement.

19.557 The 1/4 section corner of sections 25 and 30, monumented with a volcanic stone, 20x4x4 inches, firmly set, in an embedded mound of stone, marked 1/4 on west face.

No remaining evidence of the 1924 bearing tree was found.

Found a steel fence post 1.6 ft. south of marked stone.

At the corner point

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 20 inches in the ground, to solid rock, in a mound of stone 4 ft. base to top, with aluminum cap marked:

T34S
R6W R5W
1/4
S25|S30
2008

Deposit the marked stone alongside the aluminum post.

Deposit a magnet enclosed in a plastic case at the base of the aluminum post.

Corner falls on flat ground in sagebrush and scattering piñon and juniper growth.

N. 0°24.0' E., beginning new measurement.

40.725 The corner of sections 19, 24, 25, and 30, monumented with a trachyte stone, 16x10x6 inches, firmly set, in a mound of stone, 3 ft. base, marked 2 grooves on south, 4 grooves on north faces, and 6 notches on east and west edges.

At the corner point

Set an aluminum post, 30 inches long, 2 1/2 inches diameter, 24 inches in the ground, with aluminum cap marked:

DEPENDENT RESURVEY OF A PORTION OF THE WEST BOUNDARY,
T. 34 S., R. 5 W., SALT LAKE MERIDIAN, UTAH.
